72d TIJAN 1864.-SPRING T RAWSON & BARTLET BOOTS & SHOE Among the long list of regiments which the State has furnished, the record of the Sibil appears smoog the most giorious. That record, of which you may feel justly prend, you, and your children, and your children's children, will find tull written up and deposited smong the archives of the State. The past is secure, and the recowning state your derotion to the cause of universal liberty by your re-emistment, is the crowning act which places your names high on your country's "Rell of Honor," and catilities you to the lasting grattinds of every friend of humanity.

Sad is the soldier's separation from friends, and families, and homes; and yet without liberty our children are bequeathed the legacy of a life of degradation. Without our country we have no homes.

After facing death as you have often done stready in this holy cause; after all the sufferings and privations you have experienced, you again other your lives upon the altar of your country. For this your country will bless you, and God will bless you.

Comrades! I cannot, as I would like to do, take you such by the hand; but! salute you as brothers; and as I clasp the hand of your gallact commanding officer (shaking hands with Major Stockey), I extend to each you as brothers, and as I case the mann of your gallact commanding officer (shaking hands with M-jor Stookey, I extend to each and all of you, through him, a commade's hearty greeting.

At the conclusion of this remarks, three FINANCIAL AND COMMERCIAL. At the conclusion of his remarks, three cheers were given for General White, three for Governor Tates, three for Adjutant General Fuller, and three for the 37th fillmois infinity (General White's regiment, which, with the 59th, constituted his brigade in the army under General Curtis, in 1861). THE MONEY MARKET. SATURDAY FYR., Feb. 35, 1984.
The week has been an active one, and the demand for moiny has been heavy to the close. Carrency is close, succenderably so, sact that with the immensations of all kinds of produces to pay affect in the cuntry, it is not easy to secount for. But to go back no forther than the piping wild-cat times, which Iti-nois backs had put affect twelves and a half millions of currency, it was then found at times to be close, right was to the very month when this craim cans. The IDAHO. Capt. Picke's Arrival at New York— His Report.

New York, Feb. 19, 1984.

Captain Fiske of the Northern Lasd Expedition, has arrived at New York from Idaho, or roate to Washington. The report that his band was killed by Indians so ontroe; all returned safely. Capt. Fiske reports \$15,000,000 in gold dust there, awaiting transportation to New York. There are over 12,000 miners on the ground, mostly old California. that his portrait was engraved upon one carmer of the bill, and nebedy thought of defacing it in the remarkable style that has premailed since the beginning of the war. A
hanker, who is a currouisty-hemise, has shown
us a bundle of thirty-eight of these five-dojhar notes. In twenty of which the word
"traiter" is written across Buchanan's forehead; In-others the letter "T" is branded;
on one the following words appear: "Give
him his deserts"; on another is written a "Fe
ould devil," and sill another hears this inscription: "False to his country and his
God, but time to the Dunceratic party,"
Some ingentions individuals, at a least o express their contempt in words, resort to simbols; one has Zrawn a Copperhead snake,
writyelling in the mouth of Buchanan, another devices the head with a cap and bells,
and another encloses the neckwithin a none
which is attached to a gibbet. These curious
methods of indicating contempt are not of a
very high order, but they show how Mr. Be
diman is now regarded in that part of Pennsylvania in which he was once so great a
favorite.

Seldiers after the War.

Macanlay in the portion of his history relating to the state of English society at the
close of the great Remutution, beunche angel
is subject cariessaly paintied in our own
it lines. Speaking of the fears that were then
anternation as to the result of disbanding
for particular.

miners on the ground, mostly old Californian. Capt. Fishe has a ungest valued at
\$250, a present from a miner to Mr. Lincoln.
He estimates the emigration to Idaho this
summer at 100,000. The gold region of the
Yellow Stone is under the northern base of
"Black Hills, and in all the guiches leading into the say. It is wrineipal tributary
to that river.

This "Optain Fishe" is considerably
windy, much given to brandy and blowing.
A great hoise was made over the large band
of emigrants he piloted across the plains last
summer, but we are informed if consisted of
sees emigrants in addition to the guards.
The \$15,000,000 in gold dust could spare a
cypher and then be considerably closer to
the truth than he states it. The smigration
to Idaho may reach 100,000 this summer, but
if it does, 20,000 of them will return next
summer disappointed, as was the case with
the first to Colerado. An emigration of 20,
000 is more than ought to ge during the sext
year. No preparations can be made to accommodiste, employ ar support a greater
number. But the vultures who istien on the
folly of fools want to see half a million of
gold hanters rush serves the plains to equander their time and money.
